

02/04/2014

Dear Sir or Madam,

Allow me to introduce TEAM 5047 – DVSYSTEMS. We are a robotic team participating in the FIRST Robotic Competition (FRC). FRC is a competition based around a 7 week design and build period where teams get a kit of motors, miscellaneous building parts and a “task” in early January. The competition is different every year. Teams then compete in a 3-day Regional event in March in preparation for the International Championship in April.

Our season kicks off at the Hub City Regional Tournament on March 5-8, 2014. We are currently schedule to scrimmage on February 15, 2014 at The University of Texas at El Paso (UTEP). We believe strongly in the benefits of FIRST programs and look to continue participating in other FIRST Competitions each year. Other FIRST competitions are FIRST Tech Challenge (FTC) and FIRST LEGO Challenge (FLL). We feel that we can become a well-known competitor in the FIRST Community and become a recipient of the Inspire Award. The Inspire Awarded is the most prestigious award offered by FRC and is given to the team that truly embodies the challenge of the FRC competition.

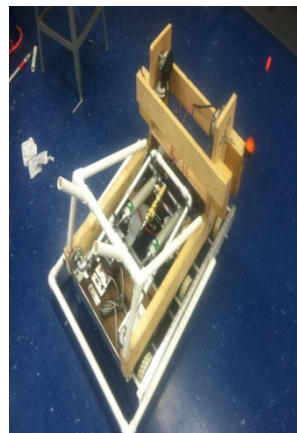

To achieve this, FIRST requires teams to learn business management and marketing skills then go into the community to seek out corporate sponsorships. It is companies such as yours that enable us to continue learning and applying the engineering skills that will shape our future. We seek more than financial support, hoping to build ongoing relationships with our sponsors. In exchange, we offer recognition for our sponsors through Logo placement on our robot, banners, webpage, and team t-shirts. We'll provide links to your company website thought our website. Our sponsors are also proudly announced at all FIRST competitions.

I am hoping to set up a meeting with you so my team and I can show you our robot and explain more about the FIRST Robotic Competition. For more detailed information about our team, you can visit our website at: www.dvsystems1.weebly.com

Thank you for your interest in FRC TEAM 5047 – DVSYSTEMS. We look forward to meeting with you and welcoming you as one of our sponsors in the near future. If you are able to provide any sponsorship, please send a donation to:
